

# Semá:th X\_ó:tsa & the River in the Sky

Madeline Donald &  
Astrida Neimanis  
UBC Okanagan

In a time of increasing climate instability, marginal and marginalized “fringe natures” such as Semá:th X\_ó:tsa teach us about the possibilities of living as part of an expanded littoral zone, where anticolonial, feminist and queer-trans modes of watery being might flourish.

2021

Semá:th X\_ó:tsa,  
a transy body

transecological theory: movement across, border curiosity, living differently in relation

# fringe natures

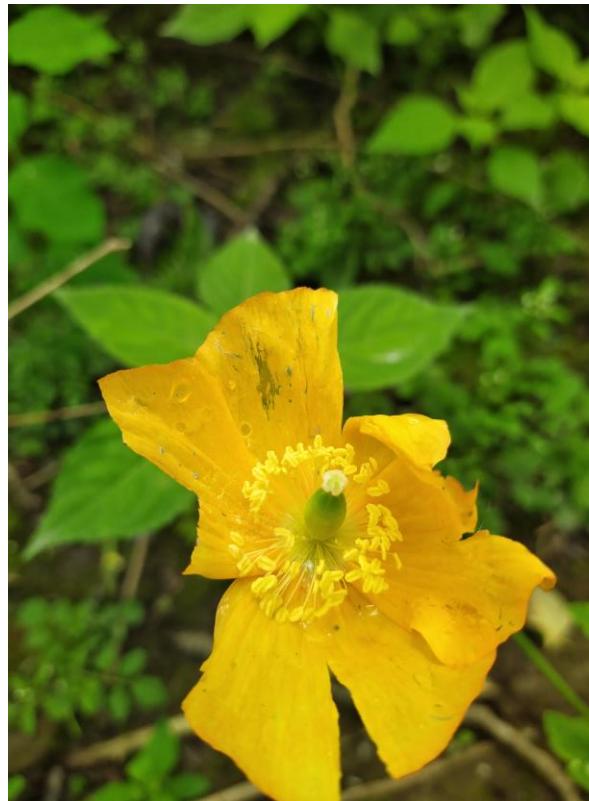

Semá:th X\_ó:tsa is neither 'lake' nor 'prairie'

How do we learn to live with elements out of place, such as rivers in the sky, while also mitigating the reasons that they are proving so disastrous?

We are now living in an expanded littoral zone, where boundaries are matters of contingency.
